I believe every large urban area of the world needs an air-conditioned, never-close BALLROOM (optional roof dancing-coaching in *Int'l Eng.-Latin,) with beautiful recorded music, gallery for spotlighted exhibitions, color portraits for Consideration Club (sharing ideas, goods, services,) numbers for partner preference-progress charts, near mass transit... to inexpensively combat delinquency, obesity, caffeine, smoking, alcohol, drugs, gambling, despondency, & which should be self-supporting.
